# Overview

Healthmate is a **medical chatbot** that offers real-time assistance through **text interactions**, providing users answers **based on their queries**. The chatbot will cater to users ranging from patients **seeking medical information** to healthcare professionals looking for **quick and reliable references**.

Activity	Detailed Activities	Weeks Required
Proposal & Planning	Research	1-2
	Planning	1-2
	Proposal	2-3
Analysis & Design	Feasibility Analysis	3-4
	Project Design	7-8
Skill Development	Learning Frontend	3-5
	Learning Backend	5-7
	Learning Machine Learning Integration	3-8
Implementation	Development	8-12
	Testing & Debugging	12-13
	Deployment	13-14
